PERSONAL PROJECTS

Task management system (03/2022 - Present)

- This web application allows users to manage and track their tasks more efficiently by allowing them to create, delete, update, search, add to favorite, view all their favorites, delete favorite and view all tasks.
- <https://github.com/davidMumpasa/TaskManagementSystemFrontend>
- <https://github.com/davidMumpasa/TaskManagementSystem>
- Technologies : Java Spring boot, react js, MySQL database

Wordle Game (04/2022 - Present)

- Wordle gives players six chances to guess a randomly selected five-letter word. if you have the right letter in the right spot, it shows up green. A correct letter in the wrong spot shows up yellow. A letter that isn't in the word in any spot shows up gray.
- <https://github.com/davidMumpasa/WordleMobileApp.git>
- Technology : Android studio with java

Flight Reservation (12/2006 - Present)

- Flight reservation is a web application which allows an admin to manage flights (register, search, delete, update) and users view all available flights, book for a specific one and make the necessary payment there after.
- <https://github.com/davidMumpasa/FlightReservation>
